Lab 1 Completion Checklist

[ ] Opened the supplied UiPath project and restored dependencies.

[ ] Inspected both CSV and Excel mock data before editing the workflow.

[ ] Completed the procedure in README.md / the Learner Guide.

[ ] Tested the normal path with the supplied records.

[ ] Tested at least one alternate or exception path.

[ ] Confirmed: The workbook ranks a rule-based digital process highest, and Main.xaml runs successfully with a clear selected-process message in the Output panel.

[ ] Saved: Completed XLSX plus one screenshot showing the successful UiPath Output message.

[ ] Removed passwords, access tokens and real personal data from evidence.
