Lab 2 Completion Checklist

[ ] Opened the supplied UiPath project and restored dependencies.

[ ] Inspected both CSV and Excel mock data before editing the workflow.

[ ] Completed the procedure in README.md / the Learner Guide.

[ ] Tested the normal path with the supplied records.

[ ] Tested at least one alternate or exception path.

[ ] Confirmed: Three test cases reach three intended routes, every route states a reason, and incomplete requests never continue to unattended processing.

[ ] Saved: Routing matrix and screenshots of the three distinct UiPath outcomes.

[ ] Removed passwords, access tokens and real personal data from evidence.
