Lab 4 Completion Checklist

[ ] Opened the supplied UiPath project and restored dependencies.

[ ] Inspected both CSV and Excel mock data before editing the workflow.

[ ] Completed the procedure in README.md / the Learner Guide.

[ ] Tested the normal path with the supplied records.

[ ] Tested at least one alternate or exception path.

[ ] Confirmed: The output contains six traceable rows, every segment matches ExpectedSegment, and the blank-email record is routed to Review without stopping the workflow.

[ ] Saved: output/customer-segments.csv and a screenshot showing the 6-in / 6-out reconciliation.

[ ] Removed passwords, access tokens and real personal data from evidence.
