Lab 7 Completion Checklist

[ ] Opened the supplied UiPath project and restored dependencies.

[ ] Inspected both CSV and Excel mock data before editing the workflow.

[ ] Completed the procedure in README.md / the Learner Guide.

[ ] Tested the normal path with the supplied records.

[ ] Tested at least one alternate or exception path.

[ ] Confirmed: All six cases pass, O5005 is Priority at the boundary, O5006 is Review, and the defect log records symptom, root cause, change and retest evidence.

[ ] Saved: Completed defect log and screenshot of a breakpoint with Locals/Watch values.

[ ] Removed passwords, access tokens and real personal data from evidence.
